

Kyra Series //

Kyra D8 Plus 250kg

SMALL YET POWERFUL

SMALL YET POWERFUL

//

Kyra Series

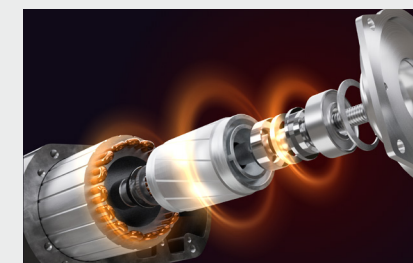

Refined

Small size, easy to move, matte black treatment surface, avoid light pollution.

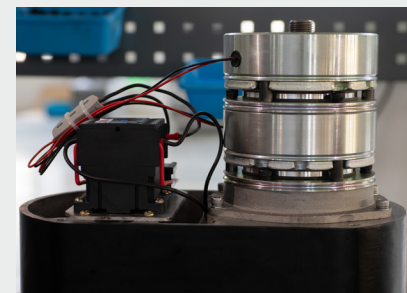

Powerful

Pure copper motor coil, strong power.

Safe

2 DC brakes, brake on power-off, ensuring safety without worries.

G100 load chain, compliant with EN818-7, 8 times safety factor, more reliable load-bearing capacity and ensures worry-free safety.

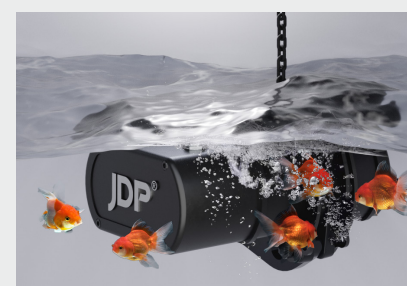

The sliding clutch is located between the motor and the brake so that the power from the brake to the load is transmitted by gear parts in form-fitting connection. Even if the clutch is seriously worn, the load will not fall uncontrolled as the load can be held in every position by the brake.

Dry clutch with high transmission efficiency, light weight and easy installation and maintenance.

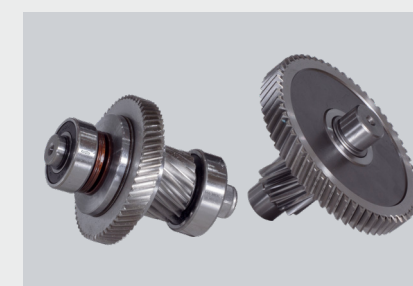

Durable

Protection grade IP66, can be used with confidence even in rainy or dusty weather. Longer life and lower costs.

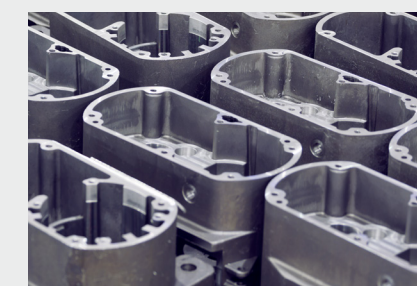

Quiet

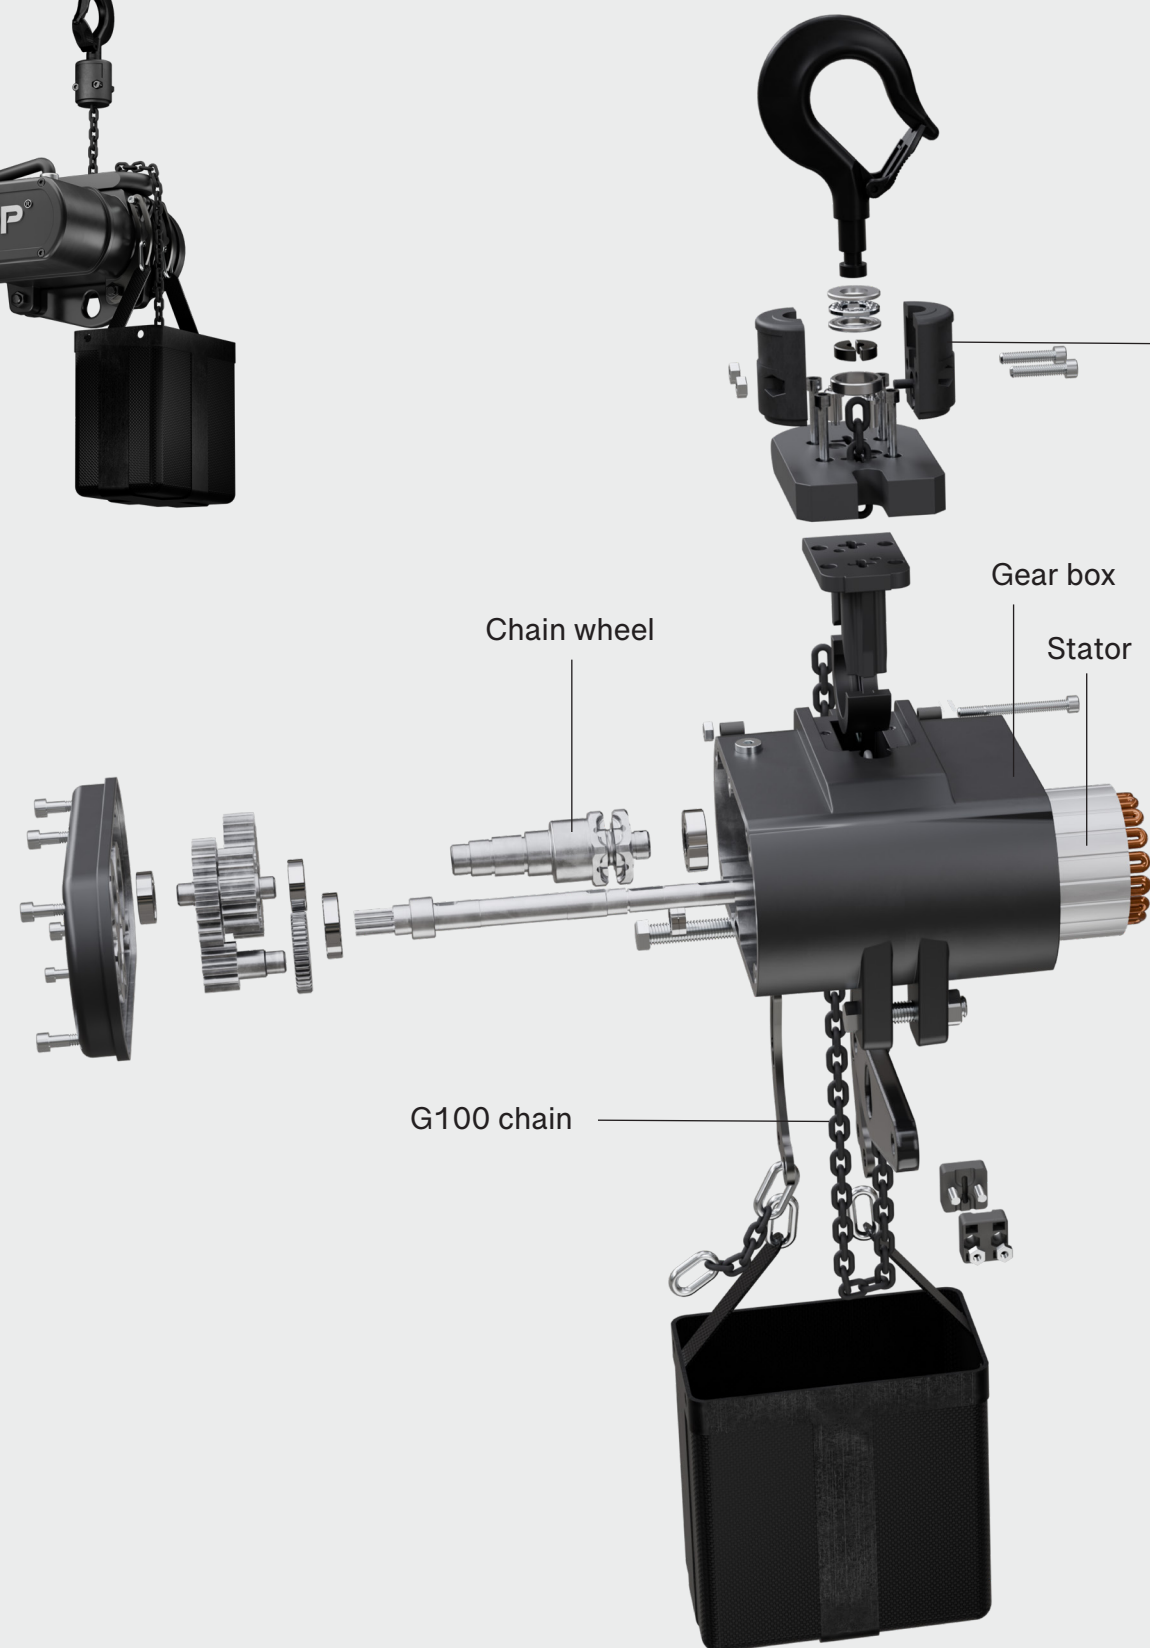

Helical gear transmission. Gear grade 6, made of high-strength alloy steel, operating noise ≤ 60 dB (fully loaded), quiet and elegant.

Solid

high-strength nylon material shell and aluminum gearbox, lighter weight strong durability.

Modular design,
easily replaceable with 360°
suspension components.
